Hey Siddhartha 🙌

Congratulations again on being accepted to Hacklytics 2024: Around the World! We can't wait to see you from **Feb 9-11 at the Klaus Advanced Computing Building** on Georgia Tech's Atlanta campus.

We have some exciting information that will help you make the most of this experience:

1. Here is the [link to our Discord server](#). This will be our official mode of communication throughout the hackathon, so be sure to join. It'll be a place where you can meet other hackers, form teams, and get all the latest event updates! This is also a great place to ask any questions you may have leading up to the event :)
2. Please **create an account on the [Hacklytics portal](#)** using your preferred email. This will speed up the check-in process on the day of the event and also give you a glimpse into all the exciting events we have planned for you!

As always, feel free to reach out to [info@hacklytics.io](mailto:info@hacklytics.io) if you have any questions! We hope you are as excited as we are :)

Cheers,  
The Hacklytics Team 💖
